

Preparation for TNT Experiences Session

In the *Experiencing God* study, Henry Blackaby discusses “Spiritual Mileposts”, as the moments in life when we have life-altering or faith-changing experiences, which God intends to use to shape our individual ministries and life stories.

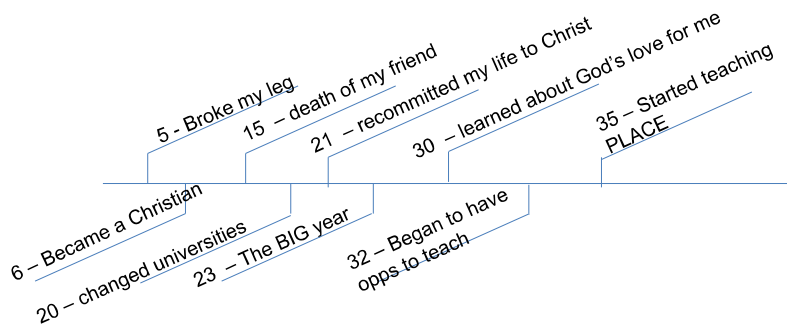

These can be experiences that are big or small, victorious or painful, physical or psychological. Regardless of their nature, these experiences inform who we are and shape our ministry and our lives.

In our time together next week, we would like to give each of you an opportunity to share briefly with the class about a Spiritual Milepost in your own life, and the ways:

- ❖ The experience informed or impacted who you are today
- ❖ The experience has shaped your ministry
- ❖ You Felt God’s presence in that experience
- ❖ You Learned about God’s character through that experience

To help you reflect and prepare for this time, please prayerfully consider which experience(s) God would have you share with the class about his work in your life. Consider creating a life timeline, and list several of your own Milepost experiences.

Here’s an example of a life timeline....

Now, create your own Life Timeline. What are the Milepost Moments in your lifetime?
